

From the Mixed Up Files of Mrs. Basil E. Frankweiler

The Metropolitan Museum of Art is full of beautiful paintings and art treasures. Claudia decided this would be the perfect hideaway place. She and Jamie hid their clothes around the museum so they wouldn't get caught. Visit the [Metropolitan Museum](#) website and discover all the art it has inside since it's too far away for a field trip!

As you are searching the website, I want you to find 8 pieces of art or sculptures you like. On a separate sheet of paper complete the following:

1. Write the name of the piece
2. Name of the artist
3. Year it was made
4. Where the piece is from
5. Tell the section of museum you found the piece of art

After you have completed all 8 pieces of art, choose your favorite and draw a sketch of the painting or sculpture. Don't forget to label it with the correct information again.

Have fun visiting the museum!
